Deplores Probation Dept. Help Shortage

The Madison county Probation and Court Services department is no longer able to provide "safe supervision for the excessive number of offenders for whom we are responsible," and will be unable to do so until additional personnel is made available, said the county's chief probation officer, said in a report Friday, Reideberger.

The report, covering 1965 activities of the department, was directed to Chief Circuit Judge Harold R. Clark of the Third Judicial Circuit. Reideberger declared that increased use of the Probation and Court Services department "in all areas of the correctional process in the Third Judicial Circuit" place great demands on the time and energy of the staff, which is chronically overloaded with work.

Plan Store Improvements To Win More Local Customers

A report on activities to revitalize the central business district—building up business volume through store improvements and a year-around promotional program—was presented to members of the Downtown Granite City Shopping Center Association Friday afternoon at the YMCA.

Homer Huber, chairman of the association, pointed out "there has been no letdown in the effort to improve our area and build our business. Some people think we are not doing anything, but actually things are happening." Further acceleration of efforts was pledged.

He noted that three new buildings have been occupied by businesses recently, and said the new park replacing the old post office building will be another major step forward.

Nestle Co. Permit From City Covers Plant Expansion

Plans for increased production of instant coffee by the Nestle Co. plant here were announced by the firm Friday after a building permit for plant expansion was issued.

The permit will be conducted in two phases, with the first showing a cost of \$101,210. The S. M. Wilson Co. of Granite City is the contractor.

The permit is for foundation of a building to be erected on the old right-of-way of 21st street which was purchased from the city by the firm. Further details are being relayed to the local officials from the firm's main offices in White Plains, N. Y.

Construction plans are not yet on file. John Newlin, plant manager, said the new structure will be utilized to increase production at the plant. Parking facilities for employees also are included in the plans.

23 Men Inducted Friday

The Madison County Selective Service board announced Friday that it had received instructions from state Selective Service officials to postpone a scheduled Feb. 23 induction of 30 draftees from the Quad-Cities.

No reason was given for the postponement, a staffer at the Madison county board said. The Quad-Cities had been scheduled for a dual draft call this month. Registrants called for induction on Friday left as scheduled, with 23 men, including two volunteers, departing from the Madison county board offices at Edwarsville early in the morning after first being served coffee and doughnuts by members of the Bethalto Women's Club.

Eight of Friday's inductees were from Madison, one from Venice, and the others from Granite City.

In the group were Terrance L. Orson, Timmy Hall, Donny R. Birk, Norman P. Richter, Kenneth D. Willott, Robert E. Crane, Larry O. Johnsen, Burl D. Bolton, James M. Chonko, Michael Stark, Warren K. Goble, Larry J. Birtick, William R. Knoch, Larry R. Eaves, Roy L. Pulley, Lonnie R. Sherfy, Franklin Wooten and Nick Ziats, all of Madison, and George H. Buckles of Venice.

Levee Board Blamed for No-Interest Deposits

Failed to Tell Bank How Long Its Funds Would Be Available

Failure of the East Side Levee and Sanitary district to draw interest on deposits ranging as high as \$714,000 in the First National Bank in Madison apparently was an oversight by levee district officials, Dr. John E. Lee, president of the bank, mayor of Venice and a leader of the Madison-Venice political organization, told the Press-Record Friday.

"They (the levee district) could have been drawing interest all the time," the mayor said. "The city of Madison puts its tax funds in the Madison bank and they draw interest regularly. All the levee board had to do was notify the bank that the funds were for interest purposes."

"This would have indicated the money, or parts of it, would be on deposit for a reasonable amount of time. Some of the two interest monies are deposited and paid out again for operating expenses."

"All the board has to do to draw interest on the money is to call the bank and give notice that it desires interest on the deposits. This notice should have accompanied the deposits," Dr. Lee said.

Average 3%
He said that money deposited by taxing agencies customarily draws 1% for funds on deposit 30 days or under; on deposit 90 days or more, 4% usually is paid. "That is the maximum," Dr. Lee said, adding that the average usually is around 3%.

At the same time, William M. Ebersold, a trustee on the five-man levee district board and city clerk of Venice, promised to "look into the matter" and take up the interest issue with other levee board trustees.

"I want to point out that the money was put in the Madison bank because it is taxes from this area. I think it belongs in local banks, but there certainly was no political pressure involved in any way," Ebersold said.

Lawrence Tolar, president of the Venice district, when questioned about the non-interest bearing deposits, was quoted as saying there was pressure from Madison county trustees to put the money in Madison county banks. Ebersold and Joseph A. Grant, Granite City, are the other three members of the board, including Tolar, are from East St. Louis.

Deplores

hundred years experience and substitute a full-range program of extensive and intensive use of probation in the community with the addition of considerable greater controlling measures than are now used with probationers.

He points out that incarceration of adult offenders in an Illinois State Prison now ranges from \$1800 to \$2000 per person, and that the cost of keeping a child in an Illinois youth institution approaches \$5000 per year.

Reideberger added, "the cost per man under supervision of the Probation Department for 1965 was \$100.85." He noted that this rate for the Third Judicial District is far below

the national average for probation supervision and would indicate a shortage of staff to properly handle and process cases.

Reideberger pointed out that during 1965 the department processed 768 "official cases" and 436 "unofficial cases" for a total of 1144 cases.

He said as much time is required to process an unofficial case as required for an official case, which is the label for those cases requiring official court action.

The report states that the Department of the department completed 86 pre-sentence investigations and reports. Sixty-four school water service, a transportation report and bids on printed forms, fire extinguishers and a physical education equipment.

Also on the agenda are teacher resignations and hiring, Stallings school water service, a transportation report and bids on printed forms, fire extinguishers and a physical education equipment.

There were 86 referrals to the department for pre-sentence investigation and reports. This number is 85% of the 98 individuals found guilty by jury trial or plea in the criminal division of the court.

Average number of pre-sentence investigations and reports per month was slightly under four for each officer. At the beginning of 1965, a total of 142 offenders were under supervision. Thirty-four defendants were discharged from probation for successfully completing their period of supervision, and seven had their probation revoked during the year. A total of 165 persons was under supervision at the end of the year.

Caseloads Heavy

In addition to investigation responsibility, two officers had average caseloads of 83 persons under supervision. A minimum of 16 man hours is required for each pre-sentence investigation and the average number of contacts per month with defendants, his family members, employers and others is three, thereby requiring 240 face-to-face contacts per month for each officer.

In the Court Services division of the department at the beginning of 1965, there were 164 children who were wards of the court and in foster homes placement. During the year, 29 children were added after being made wards of the court and 113 were removed from the program. The balance at the end of the year was 130 children in foster homes, making a 20% decrease of children in foster homes.

There were 25 dependency petitions filed in the county during the year involving 38 minors. Of these, 22 were heard and three are pending. Guardianship of 42 of these youngsters was awarded to the Probation and Court Services department. Guardianship of one was left with the parents and one case was dismissed.

Twenty-five neglect petitions also were filed during the year, involving 67 minors. Twenty-two of these were heard and three are pending. Guardianship of 18 youngsters was awarded to the Probation and Court Services department. Guardianship of five youngsters was awarded to parents or relatives and two cases were dismissed.

Total expense of providing board, medical, clothing and other care for the children who were wards of the court in 1965 amounted to \$113,783. The state contributed \$42,441 and \$9150 was collected from parents as reimbursement, leaving a cost of \$62,191 assumed by taxpayers of Madison county.

were made by collectors of the four Madison county townships lying within the levee district, there was \$714,380 in levee district funds on deposit in the Madison bank.

Subsequent withdrawals against the fund for operating costs left \$398,365 in the Madison bank at the end of the district's fiscal year on Dec. 31.

A levee board official spokesman said no further withdrawals against this sum are anticipated until April, when use of the funds for operating expenses will be necessary. Interest on this amount at 4% would amount to \$15,934 for a year; or about \$383 for the three-month period it is due to remain in the bank.

Thomas Stuckoff, mayor of Pontoon Beach and treasurer of the levee district, said he considered the matter of negotiating interest and interest rates a matter of board policy and that he left such matters up to the trustees.

The levee board is scheduled to meet at 7:30 tonight to act on its 1966 tax levy.

Business Education Committee to Report

Another in a series of monthly educational reports will be heard by the Granite City school board at 7:30 p.m. Wednesday. Reporting will be the Business Education Committee, headed by Joseph Hanson, high school business education department head.

Wofford-Strotheide Wed At Nameoki Methodist

Miss Sydney Joy Strotheide and Larry G. Wofford were married Saturday afternoon at the Nameoki Methodist Church.

The bride is a daughter of Mr. and Mrs. Sidney I. Strotheide, 2904 Hodges avenue. Mr. Wofford's parents are Mr. and Mrs. Earl D. Wofford, 2323 Sheridan avenue.

The ceremony was performed at 4 o'clock by the Rev. Frank Pierce before the altar decorated with arrangements of white flowers and lighted candles in arched candelabra.

The bride was escorted down the white carpeted aisle by her father. She wore a gown of white tulle with a full skirt and a long train. The groom wore a tuxedo with a white shirt and a black bow tie.

The floor-length train of the bride's gown was edged with lace. The bride carried a bouquet of white carnations, roses and lilies of the valley centered with a white orchid.

The maid of honor and bridesmaids were dressed alike in gowns of white tulle with a full skirt and a long train. They carried bouquets of white carnations, roses and lilies of the valley centered with a white orchid.

The wedding reception was held in the church Fellowship Hall directly after the service. Miss Karen Bloodworth presided over the guest book.

The bride is a graduate of the Granite City high school. She is employed as a secretary in St. Louis. Mr. Wofford attended the local schools, and before entering military service last September was employed by the Granite City Steel Co. He is stationed at Fort Leonard Wood, Mo.

After a brief trip he will return to his post where his bride will join him later.

MRS. LARRY G. WOFFORD, the former Sydney Joy Strotheide, daughter of Mr. and Mrs. Sidney Strotheide, 2504 Hodges avenue, who was married Saturday afternoon at Nameoki Methodist Church.

Miss Sharyn Jo Dusek, Joseph C. Thomas are Wed

Bouquets of white pom poms and gladioli decorated the altar of St. Mary's Roman Catholic Church for the wedding Saturday morning of Miss Sharyn Jo Dusek and Joseph Charles Thomas.

Rev. Sylvester Micek O.F.M., officiated at the 11 o'clock Nuptial High Mass. After the ceremony the wedding breakfast was held at the Rose Bowl and in the evening several hundred guests attended a reception at the Polish Hall in Madison.

The bride is a daughter of Mrs. Joseph J. Dusek, 922 Washington avenue, Madison, and the late Mr. Dusek. Mr. Thomas' parents are Mr. and Mrs. Joseph Thomas, 1701 Fifth street, Madison.

The bride approached the altar down a white carpeted aisle, the brides marked with white pom poms, greenery and white ribbon.

Gerald Dusek escorted his sister and gave her in marriage. She wore a candlelight gown of beaded re-embroidered Alencon lace on English net enhanced with petit de soie. Swirls of lace outlined the scalloped oval neckline and formed elbow-length sleeves. The empire line, marked by a petit de soie band brought together with a fabric rose at the back, featured a

floor-length, A-shaped skirt of English net accented with elaborate appliques of pearl-embroidered imported lace. Beaded lace appliques were repeated on the net train edged with bands of petit de soie which fell from mid-shoulder to a full cathedral-length train. Re-embroidered lace roses touched with pearls formed the crown which held a long ivory silk illusion veil.

A bouquet of stephanotis and phloxes orchids was carried by the bride.

Miss Deborah Jo Votoupal was maid of honor for her cousin, serving with two other cousins, Mrs. Milton Redman and Mrs. Roger Graumann and Mrs. Gerald Dusek, a sister-in-law, Misses Janet and Judy Thomas, cousins of the bridegroom, and Miss Martina Dombroski, bridesmaids.

They were dressed alike in floor-length gowns of gold velvet and crepe. Designed with oval necklines, the short sleeves were of velvet. The empire line held an A-shaped skirt of crepe with a flowing back panel. Miniature leaves of green and gold worn in their hair completed the costumes and all carried green cymbidium orchids backed with leaves of green and gold.

Edward Votoupal Jr., another cousin of the bride, carried the rings, and Charles Thomas served as best man. Groomsmen and ushers included Robert Sedler and Andrew Yurko, cousins of the bridegroom, Gerald Dusek, Louis Mank, Thomas Lubek, Milton Redman, Randall Keck, another cousin, Paul Smith and Michael Modrusic.

For her daughter's wedding Mrs. Dusek chose a beige silk and chiffon suit and Casino gold accessories complemented with a corsage of green cymbidium orchids. The bridegroom's mother was in light blue lace with matching accessories. Her flowers were white cymbidium orchids.

Music for the ceremony was furnished by Mrs. Helen McGarrahan, organist, and Edward Ashley, vocalist.

After a honeymoon in Florida, the newlyweds will reside at 925 Washington avenue, Madison.

The former Miss Dusek was graduated from the Madison schools and attended Southern Illinois University-Southwestern Campus Alton center. She is employed by Southwestern Bell Telephone Co., St. Louis. Mr. Thomas was graduated from Assumption high school in Evansville, Ind., and is employed by Dow Chemical Co.

The rehearsal dinner was given by the bridegroom's parents. It was a son of Mrs. Julia Hickman of Salem, Ill.

GC Wins 13th Consecutive Sectional

Granite City's wrestling squad won its 13th consecutive sectional tournament as three Southwestern Conference teams flexed their mat muscles at Granite City Saturday.

Since 1961, the Warriors have captured every sectional trophy, and they hold 22 championships in the 27-year history of the meet.

Southwestern Conference teams finished 1-2-3. Granite City scored 76 points, East St. Louis 43 and Edwardsville 42.

Six Warriors qualified for the state meet at Evanston on Friday and Saturday. The Flyers and Edwardsville were second and third in placing qualifiers with four and three respectively.

At a school's — Granite City, East St. Louis, Edwardsville and

Wood River (all in the Southwestern Conference) — qualified six champions and eight runners-up out of the 24 wrestlers advancing to the state meet.

Fuchs 95-Pound Champion
Unbeaten Bill Fuchs of Granite City stretched his season mark to 34-0 and chalked up pins No. 28, 29 and 30 as he won the 95-pound class championship.

Last year's state runner-up, Fuchs, pinned East St. Louis' George Gill in 3:58. Meeting Gill four previous times this year, Fuchs pinned him twice and de-

conditioned the Flyer the other two times.

Gill, runner-up, also advanced to the state meet. Late last week Fuchs was a doubtful entrant due to a sinus condition, but he received his doctor's permission to wrestle.

One of the biggest upsets of the meet came in the heavyweight class when top-seeded Terry Scott of Quincy was pinned by Houston Haines of East St. Louis in 3:23 of the championship round.

Haines gained his semi-final berth with a referee's decision over Dewey Bell of Granite City after the score was tied 4-4. Bell

had beaten Haines on three occasions earlier in the year.

Hartman Wins Title
Edwardsville's 335-pound Louis Hartman won the heavyweight championship, pinning Haines in 2:39 of the championship round.

Granite City's Mike Andria took the 135-pound crown, defeating Dave Brownridge of East St. Louis 4-0 in the final round.

Andria also defeated Mike Cracker of Carbondale 3-0 and Andy Riley of MacArthur 5-0 in stretching his wrestling record to 33-1 before entering the state finals.

The other Granite City wrestler to capture a sectional crown was

145-pound Jim Valicoff. MacArthur's James Cobb was pinned by Valicoff in 4:45 of the final round. Valicoff also pinned Earl Haynes of Lincoln in 1:39 and Larry Northrup of Jacksonville in 1:50. Valicoff's record now stands at 39-2.

Lincoln's Henry Medley gained a 10-7 decision over the Warriors' Joe Martinez, for the 103-pound sectional championship. Both Medley and Martinez will advance to the state meet. Martinez holds a 30-2 mat record.

Reynolds Runner-Up
In the 112-pound main event, Curd Alexander of Edwardsville out-wrestled Mike Reynolds of

Granite City 6-4 for that weight's title. Reynolds (28-5) and Alexander (26-1) advance to the state meet.

Roger Rice of Edwardsville captured the 127-pound championship with three decisions, including a 7-3 verdict over the Elwyn Beard of Decatur Eisenhower in the sectional finals.

Wes Hilligoss of Jacksonville nearly lost a 5-3 decision to East St. Louis' Willie Williams but held on for the decision in the 138-pound championship bout.

Jacksonville's Bob Denny pinned Decatur's Landon Beasley in 2:50 for the 154-pound

Venice Red Devils Bomb Lincoln's Tigers 83-50

Venice's Red Devils took a 23-7 first-quarter lead and coasted to an unexpectedly easy 83-50 win over the East St. Louis Lincoln Tigers at Venice Friday night in a non-conference game.

Percy Dillon and Rich Essington paced the Red Devils in that first period with 19 points while providing rebounding and playmaking services.

Dillon scored four baskets on rebounds and tips during the first period, while Essington notched four field goals on driving jump shots.

Second period action saw Dillon hit for seven points and sophomore Johnny Gardner net five points. Gardner aided Dillon on the boards as the Lincoln defense began to sag in an effort to snare missed shots.

With Dillon and Gardner on the boards and Essington conducting traffic on offense, the Venice quintet raced to a 40-19 halftime lead.

Rod Jacobs, sixth man on the Tiger squad, paced a stumbling come-from-behind attack with eight points in the third period. But once again Dillon was master of the boards, tipping-in two field goals and scoring on a long jump shot to help keep the Red Devils ahead 54-31 at the end of the third period.

Reserves played the majority of the fourth period for the Red Schaffner and Dillon shared scor-

ing honors for that quarter with six points each.

Lincoln's Ed Collins, another reserve, took over scoring duties for the Tigers in the last quarter, netting eight points on four jump shots.

Free Throw Shooting Poor
Although Venice won by a 33-point margin, the Red Devils were only 17 for 30 at the free throw line. Lincoln made eight of 17 charity shots.

Dillon finished the game with 29 points and 19 rebounds, a 4-0 Essington made 12 assists while scoring 19 points.

Jacobs led the Tigers in scoring with 14 points, while Collins, Stan Sanders and Bill Barnes tied with eight points each.

Venice did not commit a floor violation until late in the second quarter and finished the night with only eight turnovers. Lincoln lost the ball without taking a shot 21 times.

The games leaves Venice with a 22-2 season mark and Lincoln with a 7-14 slate.

The Red Devils have only one more season game remaining, at Aviston tonight, before going into district tournament play.

Southern Illinois, the nation's No. 1 rated indoor basketball squad, was upset by No. 9 Indiana State 85-83, at Terre Haute Saturday night.

The Salukis held a 45-35 lead with 17:58 remaining in the game, but fell, behind by 11 points. A last-minute scoring spree, by the Salukis failed to win the game.

GC Blows Five-Point Margin, Loses 72-67

A 10-point fourth quarter and the absence due to illness of two reserves brought the Altos Redbirds ahead of Granite City's Warriors 72-67 at Altos Friday night.

Leading by five points going into the final period, the Warriors hit a cold spell while the Redbirds poured in 20 to win the Southwestern Conference contest.

The Warriors finished their league season with a 5-7 mark, while Altos ended with a 2-10 record. Granite City ended up in a fourth place tie with Edwardsville behind East St. Louis, Collinsville and champion Belleville. Altos finished in the conference cellar.

Despite the lack of the services of Bob Malottiki and Jim Stuart, Granite City jumped to an eight-point lead, 20-12, at the end of the first period.

The Warriors' margin was chopped to two by the end of the first half as Altos, behind the scoring of Rod Spooner, outscored the visitors 21-15 in the second period.

Stretch Lead to Five
Larry Ripka and Co. renewed their attack in the third period to hold a 57-52 advantage over the Ralph Street-coached quintet.

Freeman Nears Illini Season, Career Records

Don Freeman, former Madison career star and currently captain of the Fighting Illini basketball team, is nearing major scoring records at the University of Illinois.

John "Red" Kerr holds the single-season record with 336 points and Dave Diney claims the career scoring record with 1360. Currently, Freeman, the eighth top scorer in the country with a 27.9 clip, has netted 516 points this season and 1307 during his career at the University of Illinois.

Freeman will be honored at a special "Don Freeman Day" ceremony March 5 at the halftime of the Illinois-Iowa Big Ten basketball game.

Drives Car Into House, Faces Three Charges

Finece Roddy, 36, of 1125 Logan street, Venice, faced three charges today after he allegedly drove his auto into the residence of Neola Young at 1119 Logan street. The house was damaged extensively, but no estimate of the damage was made by Venice police.

Roddy was arrested on charges of leaving the scene of an accident, careless driving and destruction of property.

Venice police reported that Roddy came to them about 5:40 p.m. Sunday and asked them to talk to Mrs. Young. He said she had refused to give him his car. Police said the woman denied she knew anything about the instrument.

At 6:15 p.m., police said, they received a report from Miss Sandra Young at the Logan street address that Roddy had driven his car into the house and then drove away. A short time later police received a call that Roddy had reappeared at the Young residence and was causing trouble. They arrested him there. His car with the front damaged was found in the 1100 block of Calhoun street.

License Charges Filed

Charlie Edmonds, 30, of 517 Currier road, Venice, was arrested at 1 p.m. Saturday on charges of driving without a driver's license and without a state license following an accident on McKinley bridge. Edmonds' car was damaged, as was a section of bridge railing. Edmonds was driving east on the bridge when the mishap occurred. He told police his brakes locked. He posted \$50 cash bond pending a hearing March 2 in magistrate's court.

Big Decisions Pending for GC Council Members Tonight

Granite City council members are expected to decide tonight on the long-proposed revision of the one-way street system. Tonight's 9 o'clock session also will include a report on the possible availability of grants of federal tax funds for sanitary sewer construction. The report, based on data obtained last week at the Chicago office of the U. S. Department of Housing and Urban Development, is to be presented by Alderman Moerlein, chairman of the Special Pollution committee.

A decision also is to be made on seeking a grant of federal tax funds for air pollution controls. The one-way street proposal to expand the system to 27th street and reverse the directions now designated in the shorter one-

way system for Benton, Cleveland and Grand avenues, has met with considerable opposition since first introduced in December.

Through 2 Readings

It has been through two readings without much debate, but with final disposition to be taken tonight, the opposition is expected to pull out all stops.

The proposed system is recommended by the city's Citizens Traffic Study Commission and by the traffic engineer.

Under the new system—designed to facilitate the movement of traffic in a manner which would be more safe for motorists and pedestrians—Benton street would be reversed for travel southbound from 27th to 20th street.

Cleveland would be reversed

and would be northbound from 20th to 27th. Delmar avenue would remain two-way. Edison avenue will remain one-way northbound, but would extend to 27th street from 18th street.

State street would remain two-way, and Grand avenue would be reversed to carry traffic southbound between 27th and 18th streets.

Assessor's Expenses

The four-page agenda also lists township business, which probably will include a continuation of debate on the \$200 expense bill submitted two weeks ago by Township Tax Assessor James Barton. No action was taken at the Feb. 7 session.

Prior to entering the life insurance business, he was a high school teacher and basketball coach. He has represented Prudential since June 1962. Mr. and Mrs. Harmon and their four daughters live at 25 Del Rio drive.

Two Traffic Charges

John E. Hartley, 3141 Jill avenue, was charged with speeding and careless driving at 17th and 19th streets on Madison avenue at 1:20 a.m. Friday. He was summoned for a hearing by March 4.

Baptist Churches Plan For County-wide Crusade

Plans for a county-wide evangelistic crusade were made here Thursday at a luncheon at Third Baptist Church. Rev. Paul M. Cray, an evangelist from Vinita, Okla., was present at the meeting to address the crusade steering committee and supply individual instruction to each member.

Jack Stanton, associate director of the evangelism department of the Home Mission Board of the Southern Baptist Convention, will be the evangelist for the crusade. Mr. and Mrs. Albert Walsh from Decatur, Ga., will lead the 300-voice crusade choir. The committee is now trying to secure a location for the event which will be attended by crusaders from 3000 or more.

The steering committee for the crusade consists of Rev. Eugene Phillips of Third Baptist Church, general chairman; Rev. Clayton Humphrey, Second Baptist, publicity chairman; Rev. Richard Dilender, Maryville Baptist, transportation chairman; Rev. James Feaman, Calvary Baptist Church, Edwardsville, counselors chairman.

Calling All Home Makers By AARON FREDMAN Home Entrances Should Be Attractive

Here are some tips for you on decorating part of your home that's often neglected — the entrance area. This is an important area because it is here that a visitor gets the first impression of your home.

One of the most important jobs for the entrance area is to say "welcome." Therefore, it should be inviting and cheerful.

If you have an attractive entrance area it increases the atmosphere of hospitality in your home. Bright, cheery warm colors are usually best. There are practical considerations for this area, too. There usually should be enough place to put mail, keys, gloves, etc. If the area is not big enough for a table, you can consider wall shelves that require no floor space.

It's usually a good idea to have a mirror in this area. For one thing, a mirror will add depth and make your entrance way seem larger. For another, a mirror is practical for folks who want to take a last check at themselves before going out.

This area should be well-lighted, and if you do use furniture, remember to place it so it will not interfere with free and easy movement. And here's one last tip for this area. Try some wall planters or floral arrangements. This will add one more bright, lively touch for you and your friends on entering your home. So, remember, when shopping, our decorating and sales staff here at Fredman Bros. Furniture Co., Nidringhaus and Delmar Ave., in Granite City, is always ready to serve you. We are open Monday, Thursday and Friday night until 8:30 p.m., other nights until 5:30 p.m.

Sheriff Starts One-Man Patrols For Three Shifts

Sheriff Barney Fraundorf yesterday instituted one-man patrols in an experiment aimed at improved police protection for the unincorporated areas of the county.

The sheriff, who has been authorized to employ three more deputies, increasing his staff to 15, said three patrol cars will be on duty on the 5 p.m. to 1 a.m. and the 1 to 9 a.m. shifts and two on the 9 a.m. to 5 p.m. shift. Previously there were no day patrols.

During the night, two cars will operate in the south half of the county and one in the north. The sheriff's department also has been allotted a fourth patrol car this year.

Fraundorf noted that of his staff, two of the 15 men are investigators and one is a youth officer, leaving 12 for patrol duty on three shifts. His budget allows \$82.125 for patrols, and deputies are paid \$450 per month.

He said the charges are being made reluctantly to meet continuing demands for increased police protection in some of the unincorporated areas. He noted that his office received 1113 reports of criminal offenses last year.

With an area 30 miles wide and a population of 75,000 in unincorporated areas, the sheriff said the only answer is more trained personnel which can be provided only by the county board of supervisors.

He said special police are not the answer as they are untrained, unpaid and uncontrollable, though some have been useful in the past.

Lions Start Planning For Pancake Brunch

Plans for the annual pancake brunch and a banquet to honor young baseball players from the Madison Khoury League were discussed Thursday evening at the Madison Lions Club's weekly dinner session. Twenty-eight attended the business meeting, conducted by Walter Gavlick, president, at the Sportsmen's Club.

Avery Schermer announced the club's pancake and sausage benefit breakfast has been scheduled for Palm Sunday, April 3, at the Madison Memorial Center. Various committee chairmen to handle arrangements will be appointed this week, he added.

Planning also continues for a dinner on March 3, when the men's service group will entertain between 50 and 60 members of three Khoury League championship baseball teams, together with their managers and coaches. Judge Austin Lewis, dinner chairman, was reported arranging the appearance of a sports personality as the featured speaker.

New Assistant Named By State's Attorney

Joseph L. Kashner, an Alton attorney, has been appointed as an assistant on the staff of State's Atty. Joseph R. Barrylak. Kashner, 27, replaced Harry Mondthink of Alton who recently resigned. He will be assigned as mental health assistant involving cases at the Alton State Hospital, and other cases.

John T. Roach of Alton, who had been handling mental cases, was assigned as a regular assistant. Leon Scroggins of Granite City has been named chief assistant in charge of criminal cases. A replacement is yet to be secured for Wendell Durr of Alton, who also recently resigned.

Optimist Oratorical Contest Planned Thursday Evening

The annual "Optimist Oratorical Contest," sponsored by the Granite City Optimist Club, will be held Thursday evening, at the YMCA. This year, the event is to be combined with a "Ladies of the Night" program, with members to compete at zone and district levels, scheduled for later this spring.

Plans for the 1946 preliminary speaking competition were outlined by Earl Lee, contest chairman, at the club's weekly lunch. To qualify for the contest, youths must be under 16 years of age. Last year's winner, Kenneth Graham, 13, son of Mr. and Mrs. Kenneth Graham, 2017 Mantley avenue, went on to capture first prize at the district level. Proceeds from the machines are used by the men's service club for youth work in the community.

Edward L. Stone, president, conducted the business meeting, attended by 30 members and three guests, John Drees, Joseph Glik and A. C. Sioever.

tary of the Associated Retailers of the Tri-Cities, said local retailers should concentrate on keeping abreast of this area's business in their own locale.

While credit business has increased 13% locally from 1964 to 1965, the amount of credit business in the Quad-City area going to firms in other localities — including Belleville, Alton, East St. Louis, St. Louis and other places — has increased 88%.

A statistical survey disclosed that in 1960 there were requests for 14,632 credit reports locally. The number climbed to 16,538 in 1965.

But, he added, the number of credit reports on Quad-City residents obtained by non-member business firms — those in other areas — jumped from 678 in 1960 to 13,109 reports in 1965.

Thus the Quad-Cities are failing to hold their own in the competition for retail trade, losing a growing proportion to stores elsewhere.

Reports Higher Here

Bernard also explained that Alton, Belleville and other communities customarily have 100 or less out-of-town credit reports per month.

One firm in another city obtained 330 credit reports on Quad-City residents in one month. Assuming that the business in this area averages \$100 for each report, this means a loss of \$33,000, he explained.

About 35 retailers attended Friday's session. Another meeting to be attended by the owners of downtown property housing business firms, is to be held next Friday, Huber announced.

Plans for year-round advertising promotion were outlined by Jerry Shaul, chairman of an association's promotion committee.

Liquor in Car Charged

Tyree Lane, 57, of St. Louis, was arrested on McKinley bridge at 7:30 p.m. Saturday on a charge of illegal transportation of liquor and driving while under the influence of liquor. Lane posted \$50 cash bail pending a hearing March 9 in magistrate's court.

Bi-State Appointment

Edward Delmore, 33, of St. Clair county was named Friday by Gov. Kerner to a new five-year term as a Bi-State Development Agency commissioner. A board member since 1961, he is to serve until Jan. 18, 1971. He is a land developer.

given by the president, Mrs. Arnold Mason, to the 85 members and guests present. The next meeting will be a bowling party March 19.

A 150-patch was presented Saturday afternoon to Steven Lassio, son of Mr. and Mrs. Gail Phelps, 2006 Garfield avenue, for having bowled over 150 earlier that day for the DX Blazers team of the park board Junior Boys Bowling League. Warren and Russell Smock, fellow team members, have also received 100 patches this year. With the Blazers winning Saturday, they are now in undisputed first place.

New County Road Tax To Offset Loss of Aid

Madison County Highway Superintendent Harry A. Kluge said Saturday that \$340,000 yearly county revenue from a new five-cent tax will more than offset an estimated loss of \$22,000 annually in state matching funds for support of federal-aid secondary highways.

Thirty-eight counties are losing federal funds for the secondary road system and 64 counties will have their shares reduced because of dwindling state funds. The Illinois highway division closed Friday. The new county tax was voted Dec. 22 by the County Board of Supervisors.

The state's annual contribution to secondary federal road work in Madison county has been about a fifth or sixth of the amount coming from Washington. Among the pending projects is a four-mile highway along the northern boundary of the SIU-SW campus, Kluge said.

Whither America?

Violence, Dishonesty, Immorality

(Fifth of a series) In the past few issues this series has outlined some of the ways Americans are losing our freedoms so gradually, but so steadily, that unless we wake up right away, it may become too late to do anything about it.

For the most part, our freedoms are being eroded by greater and greater encroachments of federal power. But that isn't the only danger. Far too many of us, as individual citizens, also are to blame for enslaving ourselves in crime, corruption and immorality.

Last year, for example, more than 2,000,000 serious crimes were reported throughout America, an increase of 13% over the preceding year. Compared with 1955, the crime rate was up 58%, which far exceeds the population growth.

In the next 10 minutes, at this rate, 20 burglaries, 10 automobile thefts, 10 other larcenies, three aggravated assaults, two armed robberies, and one rape will be committed somewhere in this land of ours.

Crime is committed, moreover, not just by professional criminals but by supposedly ordinary citizens as well.

Dishonest employees, for example, cost American business an estimated \$1 billion a year.

Such dishonesty accounts for 7% of all bankruptcies in the U.S. Moreover, money and merchandise stolen through inside jobs amounts to twice that taken through burglary, holdup and car theft.

Nor is dishonesty the only moral breakdown. In the past 20 years, the percentage of unwed mothers has tripled. Since 1957 the venereal disease rate has tripled. More than 60% of the cases of reported VD fall in the 13 to 19 year age group.

But then what else could we expect when approximately 500 new paperback books are published in just one year, many of them explicitly with various forms of sex perversion... When nearly half of the American people acquiesce to their poll, have seen or read books

they think should not be sold?... When TV programs bring violence in our homes?... When an educator speaks out in favor of free love, and a minister condemns illicit sex in a speech from the pulpit?...

When much-divorced entertainment figures make a mockery of their marital vows, only to be lionized by a dotting public?...

When parents either fail in their responsibility to give their children moral values, or admonish young people to adhere to high standards while indulging in shady business deals or cutting corners on income tax returns themselves?...

To remedy what ails us, America can either hire more policemen to protect us against crime, or it can encourage its citizens to do much more to "rehabilitate" themselves, and start taking more responsibility for our own actions.

For just as no steam or gas drives anything unless it is channeled, no life grows great until it is focused and disciplined.

That is the message we need as a whole as well as for each individual. More than a century ago, an astute observer of this nation, Alexis de Tocqueville, wrote:

"I sought for the greatness and genius of America in her commodious harbors and her ample fields, and in her fertile fields and boundless prairies, and it was not there; in her rich mines and her vast world commerce, and it was not there. Not until I went up to the churches of America and heard her pulpits almost with righteous denunciations of the sins of her people, and I understood the secret of her genius and power. America is great because she is good, and if America ever ceases to be good, America will cease to be great."

America, it is painfully clear, is ceasing to be good. When the example before us of other civilizations that have crumbled from internal rot, can we long ignore the ultimate consequences for ourselves and our posterity?

How to Choose Language Course

(Last of two articles) How long should a language be studied by a school pupil? It is just about worthless.

Ideally, a youngster will start learning a language in elementary school and carry it through the high school, and begin a second language in junior high and continue it for three or four years.

Instruction will then include hearing and speaking first, then reading and writing. Audio-visual aids, such as tape recordings, should be available in the later stages.

But which language should a child take?

Spanish, German, Russian. His choice will be limited, of course, by what is available. Elementary schools most commonly offer Spanish or French, sometimes German, and in a few instances Russian. Usually there is no choice.

In secondary school, Latin, Spanish, French and German may be available, sometimes Russian.

A few places offer Chinese, Greek, Hebrew, Italian, Polish, Norwegian or Portuguese, depending on the makeup of the community. Because of national needs, there is some pressure for high school courses in Arabic, Japanese, Hindi.

Normally, the wisest choice is a language that has a great culture, is spoken by a large number of people, and is offered right on through high school.

However, if the student's first choice language is not available until much later on, he is wise to take another simply to get started.

Command of any foreign language is educationally beneficial and makes another easier to learn.

Advantages of Latin. What about Latin? Though it's

not a hearing-speaking language and at first glance doesn't seem practical, Latin offers many significant advantages.

It is the parent of most western European languages, and it helps reveal the basic structure of language. Half the English language is made up of Latin root words, and one way to learn how to handle English with sensitivity and precision is by knowing Latin.

Latin literature, along with that of the Greeks, provided the basic concepts of modern political, aesthetic and intellectual life—the ideas of humanism, wisdom, justice, self-control, social responsibility, beauty.

Latin is an excellent choice, then, for the junior and senior high school years as either a first or second foreign language.

It is still highly regarded in college admission. Many schools dropped it in recent years, but it is having a comeback now, under pressure from interested parents and students and teachers.

What Do Colleges Want? Language requirements for admission are getting tougher. More and more colleges say they would like to see at least four years of one language. Three years of one language and two of another are generally acceptable, but two languages for two years each are frowned on.

Competition is growing, too. That is, many applicants are finding it difficult to get into college. That is, many applicants are finding it difficult to get into college. That is, many applicants are finding it difficult to get into college.

Colleges, of course, are far more interested in proficiency than in the number of years a language has been taken.

As the Levee President Says, Hillside Drainage Is Not a Local Responsibility

Lawrence Tolar, East Side Levee Board president, hit the nail on the head last week when he said metropolitan hillside drainage should originate in areas distant from the levee district.

His assertion that hillside drainage should be a statewide concern is encouraged by the fact that it will be recalled that in the last state legislative session, levee politicians tried to get non-referendum bonding authority to build a large network of ditches and canals at the expense of Quad-City and East St. Louis property owners.

There was loud applause from many people safely outside levee board taxing jurisdiction, but not much from those who would have had to pay the freight—and who have had to pay the freight—with the district's wasteful spending practices.

The fact that matching federal funds have been and still are available does not change the fact that bluff-area drainage cannot fairly be placed on Quad-City's shoulders and pocketbooks.

Area political leaders owe it to local citizens to make this clear the next time somebody gets the bright idea of trying to sneak a bill through the General Assembly. Maybe President Tolar now agrees with the Press-Record that such tactics as the secret \$5,800,000 bond issue plan of 1965 are unfair and reprehensible.

A Long and Important Assignment The 22 Granite City educators being honored tonight by Kiwanians jointly have devoted 868 years to the local school system, an average of nearly 40 years each.

Experience with much fewer youngsters and over a shorter span of time is enough to convince most parents of the challenges that have confronted the 22. Each has been engaged full time in molding the minds, characters and self-expression of school children, a task that is rewarding but not without headaches.

Five assignments are more important than that of educating the young, and none that adults they can take up the duties of self-government. The entire community joins with the club in saluting those who have served long and ably in this cause.

The 47 Days Before Easter "To give them a gladness instead of ashes, the oil of gladness instead of mourning."

Ash Wednesday this week will begin the annual Lenten season for many thousands of Quad-Cityans. During the 47 days concluding on Easter Sunday, April 16, the final Lenten fast, the triumph of Jesus will be recalled by those of the Christian faith.

The coming weeks will be a time of self-denial, coupled with increased charity, prayer, study and thought, preparing the way for maximum inspiration from the observance of Easter.

The best things in life are free; it must be the worst things that are so expensive.

THE PASTOR SPEAKS

'I'-The Idol Worshipped Today

By Rev. James H. Eldridge, Pastor of Central Free Methodist Church

The question was raised in a Sunday school class: Do Americans worship idols today?

The discussion surveyed the field of things toward which men might set all their affections, and thus make them gods. One comment was that perhaps the greatest idol of American society might be "I."

For what purpose is one's effort to get material gain? Is the "I" might be more securely established upon the throne of self gratification?

God is often referred to lightly as if He were a benevolent Adversary of Good. Who winks at the sins of those who gloss over them by a token acknowledgment of Him.

This attitude, if it would speak, might say: "I am really God, and the One who is called God is a magical Servant Who stands ready to help me in my pursuit of everything."

Demands of Discipleship Jesus once turned to the multitude following Him and startled them by His words: "I have chosen you to follow Me, and yet you do not know what you are doing."

Many of the boosters of "I" worship seek for the office of the

Much More Must Be Learned About Safety on the Highways

The more people learn, the more they realize they don't know. Although intensive vehicle and highway safety studies have been made, it is apparent that much more must be learned before there can be a significant reduction in the 49,000-a-year U.S. traffic fatality rate.

Americans numbering 605,000 have died in all wars from the Revolution to Viet Nam. Road deaths in this country have totaled a million and a half in just the last six years. Yet the division of these tragic statistics into many isolated crashes, and the convenience and deceptive security of motoring, result in a continuation of the pattern without public outcry for a solution.

Predicting 100,000 traffic deaths annually by 1975, the American Traffic Lawyers Association says the federal government currently has no plan to cope with the highway slaughter. The association's report, "Stop Murder by Motor," suggests appointment of a national traffic safety czar.

Meanwhile, an as yet unwritten highway safety act is to be submitted to Congress by President Johnson this spring.

Along with assailing the government and highway and auto designers, the traffic lawyers propose uniform state driver licensing procedures, mandatory periodic physical and eye examinations of drivers, a lower blood alcohol level at which motorists are assumed to be drunk, semi-annual inspection of vehicles, national traffic control devices and signs, and increased emphasis on driving judgment and habits.

Specific suggestions for autos include padded head supports, other padding, shoulder harnesses, safety wheels, disc brakes, dual braking systems, reduced glare, head and tail lights also visible from the side, cornering lights, stronger door latches and hinges, hydraulic bumpers and permanent flashing warning signals for emergencies.

Estimating the annual economic loss at \$8.5 billion, the National Safety Council favors use of existing federal legislation to spur the engineering of safer vehicles, and urges larger financial incentives for traffic research.

The speed and volume of travel, inescapably involves risk. But there is general agreement that the present degree of hazard is higher than warranted. Too many people are being disabled, and too many are losing their lives.

Much apparently must still be learned, and much needs to be done. Surely, with the potential lobbying power of the millions who are directly and indirectly affected by traffic accidents, enough pressure can be brought to bear to do what must be done, and quickly.

Gross National Product Misleading By its definition, Gross National Product covers a multitude of economic activity. The \$676 billion figure newly announced for 1965 represents a compilation of all U.S. productivity. But because it has acquired stature as a barometer of prosperity, we wonder if the GNP has been condensed to a step too far.

The tabulation includes both private and governmental spending, and automatically reflects rising expenditures regardless of whether they are soundly based. The gross production between national debt and GNP thus seems to indicate greater economic health at the very time government is going deeper into debt; the more debt, the more GNP.

Private spending generates additional spending and shores up Americans' general economic well-being. Governmental programs have some of the same effect, but every tax dollar must be taken from some other part of the economy—from us or future generations.

A two-unit GNP, broken down to show both private and public production of goods and services, would provide a more accurate picture.

Squop Or Your Opponent May Squidge We vaguely recall playing tidily-winks at a child in the distant, unremembered past. But we do not plan to join in the current revival of the sport ("")—at least not until they get rid of some of the terminology, such as "squop," "squidge" and "plopp."

Many New Laws Affect Motorists

Ignorance of the law is no excuse. The definition of drug racing has been expanded to cover a race between two or more drivers. Use of Turn Signals. Turn signals can no longer be used to signal other drivers to pass.

Directional lights can lawfully be used only to signal turns or for indicating a move from one lane to another.

Those interested in such things will know that a license must be obtained to spray pesticides on traffic lanes or the air, or that used car dealers must file a \$200,000 bond before a secretary of state before a license is granted.

However, the new laws concerning automobile drivers affect a vast segment of the state's population. They include the following:

Seat Belts. On March 1, all 1961 or later model cars must be equipped with front seat belts. Such belts already are required on all new cars.

The driver's license of anyone convicted of drug racing can be revoked by the secretary of state. The definition of drug racing has been expanded to cover a race between two or more drivers. Use of Turn Signals. Turn signals can no longer be used to signal other drivers to pass.

110 Notices Mailed On Parking Tickets

Notices have been mailed to drivers holding 110 unpaid parking meter tickets issued during January by the Granite City police department.

Arrest warrants will be issued against those who remain delinquent. The number of delinquent tickets for the month was not considered high by the department. A revised parking meter ordinance providing for enforcement recently went into effect.

The courtesy notices no longer will be mailed by the department with the institution of a new type of parking meter ticket. It provides for mailing of the \$1 fine. Arrest warrants are to be issued against delinquents without notice, police said.

With revision of the parking meter law, Police Chief Raymond Willard said that "gold seal" auto stickers which formerly permitted a few aldermen and a few city and township employees to park at metered spaces in the downtown area with immunity are no longer valid.

He indicated that the "gold seal" drivers no longer have a favored status and may be ticketed the same as any other motorist.

Airport, SIU-SW Dormitory Tracts Rezoned

The Madison county board of supervisors approved last week a rezoning petition that will clear the way for construction of a \$1,800,000 dormitory as a private development to house students attending Southern Illinois University-Southwestern Campus. The project is planned on a 9.5-acre tract on the east side of Route 157 about a half mile south of the Illinois Terminal railroad tracks on the outskirts of Edwardsville at the Legate motel site. Robert G. Hane, an Alton land developer, has indicated construction will start in May when, when complete, will house 350 students.

The county board also approved a request for rezoning of a tract of land in Nameoki township, permit expansion of Lakeside Airport on Route 111, with a special use permit for operation of an airport and airfield landing fields.

Petition for rezoning of this tract was filed by A. Madeline Henrich, trustee for the owner of record. The tract was rezoned from Agricultural to M-1 limited manufacturing district with the use permit authorizing its application to airport uses.

To Add 100 Acres

The airport site is on the east side of Route 111 south of Highway 35 where new managers of the airport plan expansions, improvements and remodeling, enlarging the present airport from 50 to 150 acres.

Initial phase of the dormitory project will include construction of six dormitory buildings for 350 SIU students, restaurant, swimming pool and tennis courts, along with parking facilities. SIU officials have approved the plans which provide for future expansion of the project to a capacity of 750 students. A motel and development of the lake area also are planned.

Among other actions on rezoning and use permit plans, the petition of Charles Moutell of Nameoki township for a use permit to build an apartment building in an R-3, one-family residential district, in Nameoki township. Action on the petition has been delayed on three occasions as the result of protest from residents of the area who asked the tract be retained as a one-family area.

Harry Briggs, supervisor of Nameoki township, presented the petition and protested issuance of the permit on grounds that it presented a hazard to disposal of sewage and garbage. On Briggs' motion to reverse the decision of the appeals board which recommended the petition be granted, only one negative vote was cast, by William Webb of Granite City. A previous petition by Moutell for a permit to construct a building to include business space on the first floor and apartments on the second, also was rejected.

Action on a recommendation by the appeals board that a special use permit be granted to Harold M. Vincent Jr. permitting operation of a garage for auto salvage and setting a mobile home in an R-4, one-family district in Nameoki township was held off until the next meeting. Motion to delay decision in the case was made by Briggs.

The board also granted the petition of Pete and Angeline Belovich, owners of record, requesting the rezoning of a tract in Nameoki township from Agricultural to B-3, highway business district, with a special use permit for operation of a mobile court.

IRS Gives Advice on How To Get Tax Forms Completed

Illinois taxpayers who need professional help in filing their 1965 federal income tax returns should select qualified and reputable advisors only.

The majority of tax practitioners are competent and honest, Jay G. Philpott, district director of Internal Revenue for central and southern Illinois said today. He pointed to the following specific danger signals:

"Beware of the 'expert' who will not be around to answer your questions when the return has been prepared and filed;

"Never sign a blank return and leave it with a stranger;

"Do not sign a tax return prepared in pencil which can be changed later;

"Avoid the advisor who 'guarantees' refunds, wants a percentage of the refund, or supposedly knows all the angles;

"And, be on your guard if it is suggested that your refund check be mailed to the practitioner's address."

Philpott said it is reasonable to expect a professional advisor to sign, on the line provided, the tax return that he prepares. For future reference, you should record the name and address of the person who prepared your return.

Taxpayers may delegate the work of preparing a return, but they cannot delegate tax liabilities or legal responsibilities, Philpott reminded.

Named to Attend Youth World Affairs Seminar

Christopher McCarty, son of Mrs. Ruth McCarty, 2101 Glen drive, will attend the fifth International Affairs Seminar for Youth March 12-18 at the United Nations in New York City. He will also be at Washington, D.C. It will be necessary for him to submit a 2000-word paper in preparation for the seminar.

He will be one of seven going from the metropolitan area, the only one from here. He will travel on a bus chartered by the Disciples Council, leaving March 11 and arriving in New York the next day.

While he is in Washington, he will participate in a Peace Conference March 15-17, representing the Christian Church in an interdenominational meeting. He will then rejoin the group for the return bus trip.

Street Dept. Busy Fixing Roadways

The full 24-man work force of the Granite City street department is working to repair damage caused by the recent deep freeze, heavy snow and quick thaws.

Street Superintendent William Warfield said this week the damage to streets, road shoulders and alleys was the most extensive he has ever seen.

Difficulties in alleys include cave-ins at three locations believed to have been caused by high pressure in sewer lines. Water is pushed through the joints during a runoff and then when the pressure eases, it goes back into the lines, carrying dirt with it," Warfield said.

Cave-ins have been reported in the 2600 block alley between Adams and Benton streets in the 2600 block alley between Iowa and Washington avenue and the 2200 block alley between Delmar and Cleveland blvd.

"Every available man is working on the repairs. Alleys have fallen apart, road shoulders have broken up and there are thousands of chuck holes to be fixed in the streets," Warfield said.

"We've been at it every day since the snow melted and should have the situation under control very soon. The trouble has been the quick freezes and quick thaws that cause the road surfaces to expand and contract rapidly," he explained.

The major lesson was on "Pennsylvania Dutch Cookery."

A complete luncheon was prepared and served by Mrs. William Briedenbach and Mrs. Arthur Ringering, with decorations and table settings in the Pennsylvania Dutch theme.

Served were Mesdames August H. Beckmann, William Guth, Wayne Holt, F. G. Stephens, Kathryn Luttrell, Phillip Morrison, Hazel Cline, Peter Carich, Virgil Travis, Frank Pare, John Broekman, Robert Carroll, H. T. Arnold, Raymond Uram, Alvin Hoelter, Ralph Rotter, Chris Noth, Rufus J. Ramsey and two guests, Mrs. Uram's mother, Mrs. Joe Michels, and Mrs. Francis McManus.

The business meeting was conducted by Mrs. Beckmann, president, the selected subject being a magazine reading for the family by Mrs. Holt.

Mrs. Stephens, crafts chairman, gave a report on the "Collage" held in Edwardsville Feb. 8 which she attended with Mrs. Uram, Mrs. Ringering and Mrs. Ramsey. It was given by Mrs. Clare Dodson, home furnishing specialist.

The group also discussed plans for a "Collage" that all three area units will attend. The tentative date is March 16. It will be an all-day event at Schermer's garden shop in Madison. Teachers will be Mrs. Stephens, Mrs. Emerald Dawes and Mrs. George Cuvor.

Mrs. Stephens announced that pictures made here will be exhibited in the Edwardsville library March 18 to April 1.

EOC Officials May Hire County Director Tonight

Madison County Economic Opportunity Commission will meet at 7:30 this evening to review applications of persons seeking the post of director for the EOC's county-wide anti-poverty program. The 100-member commission also is to discuss the selection and other aspects of the proposed project development. The meeting will be in the board of supervisors office in the courthouse at Edwardsville.

Immediate action is expected in hiring a qualified individual to get the county's survey project under way, Hugh R. Hairston of Venice, county commission vice-president, said. Late last week, U.S. Congressman Melvin Price announced the Office of Economic Opportunity in Washington, D.C., had approved \$57,234 in federal funds to initiate the survey.

Efforts by the commission to start anti-poverty programs have been stymied for more than a year due to dissension between various local action groups, which filed separate applications for federal funds. After consolidation was achieved, the commission's first request for funds was considered too excessive and subsequently was rejected at the regional level.

quoting the mandatory 10% in "in-kind" services, such as donated office space, supplies and professional services, which must be contributed by the sponsoring organization.

In addition to an overall director, commission members earlier had recommended hiring two assistant directors, responsible for specific areas in the county: a small office force and 15 neighborhood workers from the ranks of the impoverished. Under the original proposal, the six-month survey was to have been conducted by 45 neighborhood workers, three assistant directors and clerical staffs to be located in three branch offices.

The federal grant represents 90% of the estimated funds required to determine which areas in the county are in greatest need and appraise resources necessary for their alleviation. The survey also will advise the undertaking of anti-poverty programs by existing agencies or the formation of new projects to assist impoverished families.

Madison county EOC currently is conducting a Medicare informational campaign in a joint effort with St. Clair County Economic Commission.

Mrs. Irene Hand, 57, Collapses at Home, Dies

Mrs. Irene Hand, 57, of 2033 Thirtieth street, collapsed in the kitchen of her home about 8 p.m. Thursday, and was pronounced dead a few minutes later at St. Elizabeth's hospital. An inquiry, conducted by Deputy Coroner Robert Thomas, attributed death to heart occlusion.

Mrs. Hand, a textile worker at the Cerro Copper Brass Co., St. Louis, had been at work that day. According to a family spokesman, she was standing near the kitchen sink when suddenly she complained of chest pains and immediately collapsed. She had not reported feeling ill prior to that time.

Born in Cartersville, Ill., Mrs. Hand lived in Granite City for the past four years, having moved here from Venice, where the family had resided for 25 years. She was employed at the St. Louis firm for 15 years and was a member of the AFL-CIO Textile Workers Union.

Survivors include her husband, Henry Hand; two sons, Earl and Clarence Hand, both of Granite City; three brothers, Alvin Whitecotton, Granite City, Clarence Whitecotton, Madison, and Herbert Whitecotton, Herrin, Ill.; three sisters, Mrs. Emma Hand, Granite City, Mrs. Ruth Saloon and Mrs. Ella Bateman, both of Herrin; and her mother, Mrs. Cora Williams, of Mattoon, Ill. Funeral services were held Saturday. Arrangements are given in today's obituary column.

on charges of profanity and intoxication. He pleaded not guilty and was released on \$50 cash bail pending a hearing.

Mrs. Komadina, 45, Passes Away Saturday

Mrs. Margaret E. "Peggy" Komadina, 45, of 2000 Ames avenue, passed away at 6:45 a.m. Saturday at St. John's Mercy Hospital, St. Louis.

A patient there 15 days, she had been ill from cancer for the past year and a half.

Mrs. Komadina, a native of Granite City, was a lifelong resident. She was a member of St. Elizabeth Catholic Church, St. Alair Society and the Granite City Junior Service club.

She is survived by her husband, Alois; a son, Kevin, and a daughter, Betty Ann, both residing at home; three sisters, Mrs. Robert (Justine) Shanleffer and Mrs. William B. (Mary Frances) Ely, both of St. Louis, and Mrs. J. Arthur (Genevieve) Kealy of Chicago; three brothers, Paul V. Harris and William N. Harris, both of Chicago, and Thomas A. Study Plant Disease Losses

Illinois farmers suffer an estimated annual loss of more than \$30 million from plant diseases, according to G. H. Bovee, associate plant pathologist of the Illinois Natural History Survey. His estimate is based on a current analysis of information gathered in a 33-year study of agricultural plant diseases throughout the state.

The figures indicate that at least half of this loss is caused by stalk and ear rots, root rots and leaf diseases of corn that reduce the potential corn yield by about 100 million bushels a year. Bovee points out that for many years the extent of losses due to plant diseases was underestimated by farmers and others interested in agriculture in Illinois.

Bovee and others at the Natural History Survey are analyzing the findings of this research and studying the effects of weather, cropping practices and other factors to learn how plant disease losses can be reduced through different crop rotations and improved farming practices.

Sands for Glass

Illinois sands may be a commercial source of felspar, a mineral used in glassmaking. According to a report to be released by the Illinois State Geological Survey, however, a felspar industry has not developed in Illinois, probably because of the iron content of the felspar.

According to the report, Mississippi River sands have sizeable amounts of felspar with small amounts of iron oxide grain coatings. Dune sands near Kankakee and Sylvania also contain considerable amounts of felspar with amounts of iron oxide.

Education Pact

Gov. Kerner has announced that Illinois has entered into the Interstate Compact for Education to provide for a more effective exchange of ideas and information between the various states, territories and possessions of the United States.

The action came in an official proclamation issued by the governor, which remains in effect until the compact is ratified by the next session of the Illinois General Assembly.

"The development of the compact is an historic attempt to strengthen education by providing a forum for the discussion of the major problems of education in our nation and by serving as a vehicle for collecting, correlating, analyzing and interpreting the data for use by the states," Gov. Kerner said.

Population explosion in northeastern Illinois will result in conflicting demands on available land. According to a report published by the Illinois State Geological Survey, over 6 million people live within a six-county area in northeastern Illinois. By 1980, this population will approach eight million.

Additional space will be needed to accommodate streets, roads, highways, expressways, rail lines and airports. Space also will be needed for industry, homes, recreation, waste disposal, flood and storm runoff and recovery of mineral resources—especially those necessary for construction of the roads, bridges and buildings.

At the request of the Northeast Illinois Planning Commission, the Geological Survey has made studies of physical features that might permit multiple use of land. The DuPage county study, for example, outlines areas for possible excavation of sand and gravel. At these sites there might be subsequent development of recreational lakes. The sand and gravel pits could also serve as storage areas for floodwater recharge areas to supplement groundwater storage where large quantities of water are needed.

County Gets Excess Fees Totalling \$130,220

Six months financial reports of Madison county fee offices showed excess fees earned by each office, with two of them setting records, with one reported at a meeting of the county board of supervisors Wednesday at Edwardsville.

The records were excess fees of \$15,580 in the office of the sheriff and \$31,025 in the office of the recorder of deeds.

Sheriff Barney Brandford, for the six months ending Nov. 30, showed receipts of \$122,439 and expenses of \$116,872. James Chapman, recorder of deeds had receipts of \$40,871 and expenses of \$23,646.

The greatest excess fees were returned by Circuit Clerk Willard Portell at \$32,665, not including \$634 earned by the county clerk as associate circuit clerk or \$320 from the probate division of the circuit clerk's office. Portell reported earnings of \$122,364 and expenses of \$89,684.

Miss Estella Hutz, as associate clerk had receipts of \$18,944 and expenses of \$13,071. As county clerk, she totaled receipts of \$8,491 and expenses of \$4,238 for additional excess fees of \$4,253. The associate probate clerk, John Morris, had receipts of \$19,438 and expenses of \$16,027. A total of \$130,220 was turned over to the county treasurer for the county officers fund for the period.

To Ann Crews, Marsha Galoway, Jewel Myers, Sharon Koch, Phyllis Ball and Mary Tapp.

The opera, presented by the 75-voice advanced mixed chorus under the direction of Warren G. Simpkins, will have piano accompaniment by Janice Veizer and Kathy McCalla.

Drama direction is under the supervision of Richard King, Granite City high school speech instructor, while Eugene Alassi, art director, is designing stage settings.

Other key roles in the production are being handled by Brenda Dawes, stage manager; Pat Patrick and Pam Libby, prompters; George Wilkerson, curtain manager; and Mary Sheriff, Pat Parker, Linda Ebling and Edward Brokaw, wardrobe arrangements.
